WORK EXPERIENCE

WebMD | Mumbai, India
Software Engineer October 2023 – Present
WebMD.com

- Architected and maintained Vue.js components powering articles, slideshows, quizzes, and resource centers for 30M+ monthly users
- Redesigned tablet layouts from two-column to single-column, lifting ad viewability by 12%.
- Led the Vue 2 → Vue 3/Vite migration across legacy modules, cutting build times 35% and unblocking future upgrades.
- Diagnosed and fixed rendering/performance bottlenecks, driving a 10% increase in user interaction rates.
- Built a suite of Claude Code skills that automate feature implementation and code review for the team — pulling story details via YouTrack MCP and committing changes through GitLab MCP end-to-end.

Youembody.com - *new WebMD platform launch*

- Built the frontend for YouEmbody.com from scratch using Nuxt 3 SSR with lazy hydration for fast first paint.
- Implemented a responsive Tailwind CSS design system used across homepage, article, slideshow, and index templates.
- Shipped editorial modules with consistent SSR/client behavior, helping the platform hit ~140K visits and ~450K page views in its January 2026 launch month.

Brillio | Bangalore, India
Associate Software Engineer November 2022 – September 2023

- Completed a 3-month intensive training program in React.js and Spring Boot, ranking as top performer in the cohort.
- Applied that training to build a digital banking application end-to-end, covering both React.js frontend and Spring Boot backend.
- Tuned SQL queries to cut API response times by 15%.
- Rolled out CI/CD automation that reduced deployment defects by 25%.
